NEW: SAGE Center

The SAGE Center promotes learning through interactive exhibits focused on regional agriculture and energy industries. The SAGE Center features the latest technologies used by growers and food processing industries at the Port of Morrow. Our 10,000 square foot main exhibit hall displays a two story conveyor belt sculpture of a potato processing plant giving visitors a look at how a potato gets processed into curly fries.

One of our most popular exhibits is the simulated hot air balloon ride. Visitors get a unique aerial tour of Morrow County showcasing exquisite views and an up-close look at many Morrow County industries.

Filled with first class interactive exhibits, the SAGE Center leaves visitors with a new appreciation for agriculture and energy practices going on in Oregon.

Event Space

Along with the exhibit hall the SAGE Center offers a 204 seat theater and large mezzanine that is perfect for groups looking to enjoy lunch during their visit.

“The SAGE center is a world class, hands-on, attraction that provides historic, cultural, and economic backgrounds which are appropriate for all age groups. Our group enjoyed a box lunch in the meeting area and everyone was impressed by the wonderful northwest-made crafts available in the gift shop. This is a must-see stop when traveling to eastern Oregon.”
Grant Beldin, Philadelphians Group Tours

Morrow County Harvest Festival

The Morrow County Harvest Festival is our spin on what makes fall so special in our county. Our vendors showcase handmade and homemade food and crafts, and produce vendors supply a delicious variety of fruit and vegetables grown locally.

Our activities throughout the day include horse and buggy rides, pumpkin painting, fall themed photo booth, and an obstacle course for kids. Adults can enjoy samples of our famous local wine, beer, and cider. The Morrow County Harvest Festival takes place on the first Saturday of October every year at the SAGE Center.

Tillamook Cheese Days

Tillamook Cheese Days is a two day event put on quarterly by the SAGE Center. During this event guests are offered a delicious Tillamook themed lunch for \$5.00 that includes a side, dessert, and drink.

We always have specialty Tillamook products on hand including cheese curds. We feature a variety of films that showcase dairy operations, making Tillamook products, and the history of the company.

Admission: General \$5.00
Students/Senior Citizens\$3.00
Ages 5 & Under Free
Family max. Price\$20.00
Family Annual Pass \$50.00

Hours of Operation:
• Memorial Day thru Labor Day
Sun - Thurs 10-5
Fri & Sat 10-6
• Labor Day thru Memorial Day
Mon - Sat 10-5

Closed:
• Thanksgiving
• Christmas Eve
• Christmas
• New Years Day

Interactive Learning Eastern Oregon Style...

Inside the SAGE Center you will discover.

The Port of Morrow consists of three industrial parks covering more than 10,000 acres, along with the infrastructure that companies need to grow their businesses. The Port is connected to the world through the Columbia River, railroads, and interstate freeways.

Tillamook- In 1909, several small creameries teamed up to form the Tillamook County Creamery Association in Tillamook, Oregon. Today the Association runs a famous cheese plant at its headquarters in Tillamook and a second plant at the Port of Morrow.

Calbee North America- Calbee North America is a partnership between R.D. Offutt Company, the largest potato grower in the United States, and Calbee Inc. of Japan, the largest salty snack food company in Asia. Together, these partners use potatoes processed in the Calbee North America Boardman facility to produce crispy snacks that look and taste like French fries.

Oregon Potato- Oregon Potato Company (OPC) produces dried and dehydrated frozen potato products at its processing plants in Oregon and Washington. In Boardman, OPC produces dehydrated potato flakes and flour.

Boardman Foods- Boardman Foods is an integrated facility that processes frozen and whole peeled onions. Before being processed, onions can be stored in a climate-controlled facility for up to eleven months after harvest.

Cascade Specialties- Cascade Specialties manufactures extra-low-bacteria conventional and organic dehydrated onion products. Under the ownership of India's Jain Irrigation Systems, Ltd., they work closely with local onion growers to create quality products that are shipped throughout the world.

ConAgra Foods- ConAgra Foods Lamb Weston's Boardman operation creates potato products in a variety of fun-to-eat shapes and sizes, flavored with an array of seasonings. Every day, hundreds of employees use the innovation and state-of-the-art technology to transform more than 60 truckloads of potatoes into foods people love.

GreenWood Tree Farm and Upper Columbia Mill- Just south of Boardman, the 30,000-acre GreenWood Tree Farm grows Pacific Albus trees. Mature trees cut from the farm are processed into lumber and veneer in the nearby Upper Columbia Mill, operated by the Collins Management Corporation.

Pacific Ethanol- Pacific Ethanol ferments corn to convert the grain's starch into ethanol, a biofuel that is blended with gasoline. The remaining proteins, fibers, and oils in the corn are sold as a high-value animal feed.

Reklaim- Reklaim, Inc., has developed a technology that recycles shredded rubber from scrap tires to create three marketable products- oils, carbon black, and energy. The Boardman plant is the first of its kind in the country and can process the equivalent of about 1.6 million tires each year.

Boardman Marina and RV Park

Boardman Marina and RV Park, located along the edge of the Columbia River in Boardman is one of the premier marina and campgrounds in Oregon. The campground has 63 full hook-up campsites with most of them along the edge of the river. Beautiful sunsets and sunrises await you every day.

The Columbia River has great fishing with walleye, bass, salmon and several other species of small pan fish waiting to be caught. Boating, skiing, sailing and windsurfing are some of the other activities that are possible here. Our marina, with a newly paved and realigned free boat launching area makes access to the river easier than ever. There are several public boat docks for your use if you want to keep your boat in the water while you are here.

If water sports aren't your thing, we have a nice picnic area, rivers edge trail, softball fields, basketball court and a new 9 hole mini golf course to keep you active. There are 4 picnic shelters that can be reserved if you have a planned event and need a covered area to accommodate your guests.

For reservations in the RV park or picnic shelters call 888-481-7217.

Riverlodge and Grill

Treat yourself to superb service and roomy accommodations as well as a prime location that puts you within easy reach of parks (Boardman Marina Park), museums (SAGE Center), water activities (Columbia River) and rodeos (Pendleton Round-Up). The Riverlodge has exceptional value and is a pristine location along the Columbia River in Boardman.
